1. The drawings filed 23 September 2003 have been accepted by the examiner.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1 of the amendment filed 24 August 2006, in line 7 the duplicate phrase "throughout said stack." Has been deleted to correct a clear typographical error. The examiner notes that the same phrase is used at the end of line 6 of claim 1, with the phrase ending with a period. The examiner takes the same phrase in line 7 of the claim as being an inadvertent duplicate and typographical error. Correction of this error is not intended to and does not change the scope of the presented claim.

3. The following is an examiner's statement of reasons for allowance: the 112 rejections given in section 2 of the detailed portion of the office action mailed 18 July 2006 are withdrawn

in view of the amendments to the claims in the paper filed 24 August 2006. The rejections in sections 5 and 6 of the office action mailed 18 July 2006 are withdrawn in that Haggerty teaches away from slits in different sheets of the stack being aligned (see col. 2, lines 15-20 or Haggerty). As noted in the interview summary mailed 30 August 2006, the rejections using May given in section 8 and 9 were improperly applied against claim 20 in the office action mailed 18 July 2006. They are therefore withdrawn against claim 20. The same rejections are withdrawn against claims 21-25 in view of the amendment to claim 21, which recites that the diecuts are slit diecuts. See also section 2 of the detailed portion of the office action mailed 04 April 2006 and the comments regarding May and Spencer in section 1 of the detailed portion the office action mailed 20 March 2006. As the method claims are dependent on the allowed article claims and thus are of a similar scope to the allowed article claims, the restriction requirement is withdrawn and the method claims are rejoined to the allowed article claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
